

AKASH NIMARE

SUMMARY

I'm a self taught full stack web developer living in Surat, India. I love to build and design things.

I have experience in creating cross platform desktop applications, website backends, rest-api, chrome extensions, user experience and visual design. I have worked extensively in teams and alone.

EMPLOYMENT

Dropbox Remote

Contract Software Developer · May 2016 to Current

I am currently working with Dropbox. Contributing to their open source project Zulip. Zulip is a open source group chat application.

HackerRank Bangalore

Software Developer' Intern · May 2015 to Jul 2015

Worked on performance and front-end projects. I built a dashboard to monitor and measure their site performance in realtime.

Hack InOut

Lead Organizer · 2015 to Current

InOut is one of India's largest student run hackathon. Twice a year the best developers, designers and hardware enthusiasts from across India gather at NIT Surat to innovate and build on an idea.

PROJECTS

Zulip Desktop Client

It's a cross platform app built on top of Electron and node.js.

Cyberoma Desktop Client

Cross-platform app for Linux, Mac and Windows.

hackinout.co

Hackathon website built for InOut.

Github AMA

A better way to read GitHub AMA. Built using Angularjs, GitHub Api.

Vehiclesearch

Rest api for M.P. Vehicle Registration data.

Gogit

Node module to create/add/commit/push to github in a single command.
